

Dear friends and colleagues,

The countdown has now begun for World Rabies Day on September 28, 2020. In preparation we ask you to join with us under the theme: **End Rabies: Collaborate, Vaccinate.**

How can I participate?

We encourage you to **register your World Rabies Day event here**. By doing so, you will join thousands of others in raising awareness about rabies. Registering your event will ensure that the **hard work that you do is displayed and recognised globally**. You will also **receive a certificate acknowledging your call to action against rabies**. Show that you are a rabies champion – **register your event!**

You can always refer to the attached **“How to participate” quick guide** and feel free to share it with others!

World Rabies Day logos and posters

We have a host of free resources available for you to download:

“End Rabies: Collaborate, Vaccinate.” **banners and logos** available in English, French and Portuguese.

Modifiable World Rabies Day **awareness posters** – add your own logo and picture.

Unsure of what kind of event to hold for World Rabies Day?

Download our Event Toolkit to help you decide, plan and organise. This also has a ton of different **ideas for successful events** – group events, events at home and even online events.

Know someone (or a group) doing outstanding work against rabies?

The **World Rabies Day Awards**, with MSD Animal Health, celebrate the excellent work that you do across the world in the fight against rabies. Nominate an individual, student group, an organisation or even yourself by clicking **here**.

Thinking about social media and how to reach more people?

Our brand new themed **social media toolkit** is free to download and use!
