Questions? Email orncs@utmb.edu

WHY ATTEND?

- Earn Continuing Education Credits (CEs).
- Learn from world-renowned faculty members.
- Utilize best practices for clinical trials during an outbreak involving High Consequence Pathogens (HCPs).
- Recognize and prevent potential risks to data quality and integrity.
- Discuss implications of the One Health approach for achieving optimal health outcomes.
- Enhance cultural awareness and diversity involving clinical trials in geographic locations where the incidence of diseases caused by HCPs is high.
